UPCOMING

NEXT-GENERATION TV

Brought to you by 

Next-Generation TV

Let's face it: OTT is just TV—or at least it should be. Viewers are looking to OTT services not simply as an add-on for broadcast or cable, but as a replacement. Find out how to make your OTT service an reliable, robust, and feature-rich as broadcast or cable, as well as how to add features and functionality that the previous generation of TV simply can't match.

Sponsored by Akamai, Bitmovin and EZDRM
Coming November 15, 2018

LATENCY STILL SUCKS—SO WHAT CAN YOU DO ABOUT IT TODAY?

Brought to you by 

Latency Still Sucks—So What Can You Do About It Today?

Nobody wants to find out about a big play or major news event on Twitter before they see it in their video streams, so reducing latency is crucial for OTT service success. Depending on your use case, a few seconds of latency might be fine, or you might need to try to hit that sub-second target. Learn which technologies and solutions are best for your business, and make sure your viewers get their video on time, every time.

TURNKEY THOUGHT LEADERSHIP WEB EVENTS

- Establish your company as an industry champion by sponsoring one of these Thought Leadership Web Events. Unlike our webinars, which feature a single or multiple sponsor as speakers, these Thought Leadership Web Events feature content publishers or distribution platforms to discuss the topic of your choosing. A representative of your company can join or not—that's up to you.
 - › Turnkey live events: We find the speakers, we do the promotion, we handle the registration, and Streaming Media VP and editor Eric Schumacher-Rasmussen guides the discussion.
 - › 1-hour sessions broadcast live online with streaming audio and/or video with slides/multimedia
 - › Live polling, survey, and audience Q&A make it interactive
